Each section will be scored according to the criteria defined

Background, context and justification of the need to

Describe the situation of the community where they develop the project and its fundamentals in terms of degree of development, employment, education, violence, health...

Describe what other services (national, municipal or other NGOs) exist and lend their support to the community of the project.

Identification of the need and relevance of the project

Explain the appropriateness of the project and how the analysis has been done to decide what problems addressed, objectives achieved and how to work on the basis of reality of the community and existing capacities.

--

General objective
<i>The general objective is to expected change that aims to build the project, and there will only be a general objective. Main characteristics that should have this objective are that should be realistic (achievable through resources and time which has the project), precise and measurable.</i>

Specific objectives												
<i>Each of these objectives will contribute to the scope of the general objective. Its function is to determine what goods or services that will develop the project to implement your solution.</i>												
<i>The specific results expected are defined for each specific objective. Defining also the deadline or date for which is expected to have achieved such results. There must be more than one result</i>												
<i>The indicator is a specific, explicit, and objectively verifiable measure that seeks to account for the changes brought about by the project, allows you to specify how the degree of compliance with the objectives and results will be verified.</i>												
<i>The goal is the quantification of that indicator that hopes to achieve after the completion of the project activities.</i>												
Specific objective 1:												
<table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="width: 40%;">Expected results</th> <th style="width: 30%;">Indicator</th> <th style="width: 30%;">Goal</th> </tr> </thead> <tbody> <tr> <td>1.1</td> <td></td> <td></td> </tr> <tr> <td>1.2</td> <td></td> <td></td> </tr> <tr> <td>1.3</td> <td></td> <td></td> </tr> </tbody> </table>	Expected results	Indicator	Goal	1.1			1.2			1.3		
Expected results	Indicator	Goal

BENEFICIARIES OF THE PROJECT

The direct beneficiaries of the project profile

Describe the characteristics of the beneficiaries directly project: age, level of study, mode of relating to the project, level of studies, how are selected...

Number of direct beneficiaries men		Number of direct beneficiaries women		Number total of beneficiaries of the project	

Profile of the indirect beneficiaries of the project

Describe the characteristics of others who will benefit from the project but not directly participate in their execution: age, level of study, how they are affected by the project, educated...

Number of indirect beneficiaries men		Number of indirect beneficiaries women		Number total of indirect beneficiaries	

INTERVENTION MODEL

Description of the project

--

Main activities of the project		
Activities related to the specific objective 1		
Description of the activity	Start date	Finish date
1.1		
1.2		
1.3		
Activities related to the specific objective 2		
Description of the activity	Start date	Finish date
2.1		
2.2		
2.3		
Activities related to the specific objective 3		
Description of the activity	Start date	Finish date
3.1		
3.2		
3.3		

Participating team in the project				
<i>Describe people, professionals or volunteers, will participate in the implementation of the project, and what will be its main responsibilities</i>				
Number of workers-men		Number of working women		Number total of workers of the project
Number of volunteer men		Number of voluntary women		Number total of volunteers from the project
